Many Matters Dealt With at City Council Session

The regular meeting of the City Council was held Tuesday evening with all members in attendance. After the adoption of minutes of last meeting, Dr. McColligan, M.H.O., addressed Council respecting the issuing of prescriptions to indigent patients. It was agreed that the Council will not recognize any order for medical attention or supplies unless authorized by the Medical Officer of Health.

A resident of another Municipality interviewed Council asking for immediate relief referred to City Solicitor for advice.

J. E. Fraser reported that he had made a successful trip to Edmonton in connection with city property registrations and other business.

Smith-Gable Co. reported having renewed the accident insurance policy on the members of the fire brigade.

C. H. Russell advised Council there was no authority he could find which would compel property owners to cut grass on boulevards. Letter filed.

A building permit was granted by Moore to build store room on Prestonian manse property.

J. M. Jackson's and Mrs. Sam Henkel's applications for old age pensions were endorsed by Council. The secretary of the Community Hospital advised Council of Wetaskiwin patients admitted to hospital last month.

Council considered a resolution passed by the B.C. Municipalities respecting the legislation of sweep-

stakes in Canada, but this was not considered.

Accounts to the amount of \$914.11 and \$27 firemen's payroll were passed for payment.

A proposal to construct a test walk at the Elks' Hall with bituminous asphalt treatment was considered and authorized, the work to be done by R. A. Sorenson.

Ald. Enman, chairman of Public Works Committee, reported on several minor matters being dealt with in his department.

Ald. Grant reported there was some trouble being experienced with the gas supply to the Driard Hotel, and advised that the gas expert from the Department of Mines be brought down to report on the situation as soon as possible.

The Public Works Committee was instructed to prevent teams from crossing over and damaging sidewalks.

Ald. Scott gave notice that at next meeting he would introduce an amendment to the dog bylaw.

L. D. Montgomery reported on one fire during March.

Chief of Police McHardy reported on the cases handled by the police during March.

The relief committee will hold a meeting before next meeting, for the purpose of revising the amounts being paid for relief.

After considering several minor matters, among them being the importance of parties on relief growing large quantities of vegetables of all kinds this season, the meeting adjourned.

Address of H. J. Montgomery, M.L.A. Dealing With the Provincial Budget

The following is a report of the speech on the Budget made by the member for Wetaskiwin:

We have just listened to Premier Brownlee who has spoken to us today for the first time in this Session. We are all pleased to see him back in his place in this House after an illness of some weeks and hope that he will be able to be with us during the remainder of the Session, for if there was ever a time in the history of the Province that his guiding hand was needed it is now, as far as this government is concerned.

No premier of Alberta ever before had to announce to the members and to the public the fact that the financial situation facing us in the Province today is critical in the extreme. We are unable to borrow from the banks, the Dominion Government has intimated that they will give the Provinces no further financial assistance and it is impossible at the present time to dispose of bonds or other securities of this Province. Never before have we had to face a condition of this kind which no doubt accounts for the fact that the Government is making an effort to balance its budget for the coming year, and in this regard we can assure the Premier that he will have the wholehearted support of the Liberal Party.

The Government's estimates of revenue and expenditure for the ensuing year show a surplus on income account of \$9,700.00 and we all hope this will be achieved, but in examining the record of the Government for the last three years we find they have failed lamentably in living up to their expectations. For instance in 1930 they predicted a surplus of \$46,350.00. They ended the year with an actual deficit of \$2,306,000.00. In 1931 they budgeted for a surplus of \$387,000.00 but ended up instead with a deficit of \$5,153,000.00. In 1932 they estimated a surplus of \$149,200.00. We do not know yet what the deficit will actually be, but at the end of December last with three months still to run before the fiscal year ends, the actual deficit was \$1,395,000.00. This all goes to show that the Government have been so far out in their calculations that their estimates for 1933 of a surplus of \$970,000.00 cannot be relied upon. I just wish, however, to emphasize the fact that with the conditions facing us the expenditures for the coming year must be held well within the revenue actually received.

No doubt the Premier had to present a balanced budget to this House to satisfy the financial interests, and if this is so we must keep faith with them. Our expenditure and income within our income To do otherwise would be like obtaining money under false pretenses. That the Premier himself doubts the possibility of ending the year with this surplus of \$970,000.00 is indicated by the fact that he expressed the opinion during his address that he would be delighted if the actual deficit could be kept down to less than \$500,000.00. A deficit of this amount would be small as compared with the last three years, but the Government must control expenditures that their estimates will be actually reduced. We are experiencing extraordinary conditions. Conditions which have made it necessary for individuals to curtail their expenditures to within a small fraction of what they spent a few years ago. Yet we find the Government has not grappled with the situation in the way they should have done. They have reduced expenditures to some extent, but in spite of our warnings and entreaties they started retrenchment two or three years too late. The depression made itself felt in 1929 but it was not before 1932 that any reduction in expenditure was effected. Expenditures have been gradually increased by this government from 1921 when they amounted to \$10,685,000.00 until 1931 when they had reached the huge sum of \$18,645,000.00. For 1932 the estimated expenditure is \$16,513,000.00 and for 1933 it is \$15,143,000.00, but what the actual result for these two years will be it is impossible to say at the present time.

Although the expenditures show an estimated reduction of considerable proportions there are still many items that are away too high. Some should be eliminated altogether and salaries over \$2000.00 per year should be reduced considerably more than what is now proposed, while some of the smaller salaries should not be touched.

In spite of the fact that people are finding it impossible in many cases to pay the taxes forced upon them, we find the Government during the last two or three years imposing new forms of taxation and increasing existing taxation until the burden has become unbearable.

For instance, new taxation recently imposed by the government will take

(Continued on Page 5)

Weddings

BYE—MURDOCH

A quiet wedding took place at the home of the groom's father, Mr. Edward Bye, Wetaskiwin, Tuesday evening April 11th, when his son John R. was joined in wedlock to Miss Daisy L. Murdoch of Rochford Bridge, Alta. The nuptials were witnessed by only the immediate family of both parties. The bride party, being supported by Miss Ruby Bye and Mr. Cleland, were duly and solemnly married by Rev. A. R. Schrag.

After a brief honeymoon in Edmonton and Rochford Bridge the young couple will take up their residence on a farm at Malmo. The groom is a native son of Wetaskiwin and favorably known by a host of friends who wish him and his bride long life and much happiness.

MEAVEY—WAGAR

Mr. Charles M. Weaver of Mulhurst, and Miss Vera Wagar, also of Mulhurst, were quietly married at the United Church manse on April 5 by Rev. Mr. Schrag. The young couple were attended by the brother and sister of the principals. Both were born and brought up at Mulhurst and their parents are widely known as pioneers in the North Pigeon Lake area.

LEGISLATORS HAIL POLICY OF STATE MEDICINE, ALBERTA

Edmonton, April 7.—Continuation of the probe into the possibilities of state medicine was decided on by the Legislature on Friday night when a unanimous vote approved of this action.

A start was made by a house committee last year and a progress report was tabled during the session.

Hon. George Hoadley lauded preventive medicine and stressed the fact that if he so desired he could reveal information most revolutionary in nature, regarding the health clinics at Red Deer and High River.

Chris Pattinson, Labor, Edson, who had moved the original resolution asking for the inquiry, said it was one of his life's ideals to have health services for the people. He praised the work of the committee and of the report, stating that all of the reports on the subject made in Canada and on the North American continent generally, none contained a more definitely outlined scheme. He thought it was high time the legislators got down to fundamentals in the matter of caring for the people's health.

The principle of the report was that the people should pay when well and that medical service was a social responsibility, thus placing health in the same category as education.

Rudolf Henning, U.F.A., Cloverbar, reminded the House that only a progress report had been submitted. He also recalled that in some rural parts provision was made for a type of state medicine through the Municipal Districts Act, where provision was made for paying doctors from \$2,000 to \$3,000 a year.

A. P. Mitchell, Liberal, Leduc, praised the spirit of co-operation that existed in the committee. There had not been a very word spoken, a feature that impressed itself on him in view of his experience in other phases of public life.

W. G. Parquharson, U.F.A., Rlthons, also a member of the committee, supported everything that had been said. Rural areas were now taking partial advantage of the scheme. One difficulty in the way was in the enlarging of municipal hospitals. Finance was the important point, as if conditions were the same in the future as at present, there would be a difficult time financing.

FAMED MATHEMATICIAN KILLED AT BANFF

Banff, Alta., April 10.—Death reached out of an avalanche talon Sunday to seize R. E. C. Paley, England's famed mathematician recently engaged in mathematical research at the Massachusetts Institute of Technology at Cambridge, Mass.

Climbing on skis to a perilous ledge, Paley fell from a mountain of 9,600-foot high peak, Paley was pitched into the valley 2,000 feet below as one of his skis scraped light rock and started the avalanche.

REPORT HIGHWAY PROBE ADOPTED BY LEGISLATURE; LIBERAL AMENDMENT LOST

Edmonton, April 11.—Winding up the long drawn-out probe over the relief highway contracts of 1931 and 1932 as the result of charges made on the floor of the house by W. R. Howson, Liberal leader, the legislature Monday afternoon adopted the report of the public accounts committee by a vote of 43 to nine.

The report of the committee had found there were no irregularities in the handling of the contracts while there had been no evidence of dishonesty on the part of the public works department.

Right to the last the Liberal opposition maintained a firm stand against the government and held that the charges had been established.

The adoption of the committee's report was supported by 31 members on the government side, with whom voted five Conservatives, four Independents and three Labor.

Town Topics

Friday of this week is Good Friday and a public holiday.

For want of space in this issue Ye Olde Days is held over until next week.

Rusty's Coffee Shoppe will open for business on Saturday next. See advt. in this issue.

R. M. Snyder won the luncheon set at the W.I. tea and food sale last Saturday in this institute hall.

Miss Velma Dahms, who has been home during her mother's severe illness, returned to Edmonton Friday.

Mrs. Thomas Haigh and son, and Mr. Bud Wilson and Mrs. Gordon Thirkell left on Tuesday for Red Deer.

The regular meeting of the W.M.S. of the First United Church will be held in the church on Tuesday, April 18th, at 3 p.m.

Mrs. N. A. MacEachern represented Peace Hill Chapter I.O.D.E., at the provincial convention which was held in Calgary last week.

The spring sitting of the supreme civil court was scheduled for this week, but as there were no cases on the docket, no court was held.

The Vimy Ridge celebration on Friday evening last at the Elks' Hall was very successful as a large crowd was in attendance and the dancing was quite enjoyable.

Mrs. Hugh Montgomery is returning to Wetaskiwin on Sunday after spending home economics week in Edmonton with her son and daughter-in-law, Mr. and Mrs. Kenneth Montgomery, Glenora.—Journal.

W. J. Huntingford, Grand Patriarch of the jurisdiction of Alberta, paid an official visit to Victor Benhampton on Friday evening last. He was accompanied by several Edmonton patriarchs, and a very enjoyable evening was spent.

The four-year-old son of Mr. and Mrs. Matt Templeman met with a serious accident a few days ago when he was run over by a truck and received serious injury to his collar bone. The many friends hope he will soon be completely recovered.

Among those who took advantage of the excursion to the coast on Wednesday were Mrs. J. W. Somers, Miss Isabel Murray, Miss Johnson, Miss Grant of Edmonton; Mrs. F. T. Kirstein, Mrs. A. Schreifers, Adam Kaiser, Jr., and Annie and Fred Kaiser, all of whom purchased tickets to Victoria.

At the Edmonton Spring Show last week, Roma Ballhorn, daughter of Mr. and Mrs. Roy Ballhorn, was one of the fortunate winners in the baby beef competition, being awarded third place. At the bull sale held in Calgary recently Roy Ballhorn won first, second and fifth as well as the grand championship with his Aberdeen Angus bull. This is only another evidence that Mr. Ballhorn has the best stock in the country.

Assistance to the town of Fernie, threatened with extinction by the closing of the coal mines, was given by the British Columbia government in the form of advance payments on relief account.

Obituary

THOMAS HAIGH

The many friends were shocked last week to learn that Thomas Haigh another Wetaskiwin old-timer, had been suddenly called by death, on April 3rd, at his home in Red Deer. He was born in Montreal on January 2nd 1875, and was therefore aged fifty-eight years and three months. He came west with his parents in 1884, and was at Medicine Hat during the Roll Rebellion, and came farther west to Cochrane in 1886. In the year 1903 he arrived in the Wetaskiwin district and purchased a farm in the Lewisville district, where he resided until 1915, when he moved to Coronation and entered into partnership with Bert McEas in the implement business. Two years later he returned to his farm at Lewisville, leaving in 1923 for Red Deer to accept a position as C.P.R. pumpman. He held this position a couple of years, being retired when the staff was reduced.

He was married to Miss Ethel Magle Thirkell in 1912 and to this union was born a son, who leaves to mourn his loss a widow, one son Edgar, and one brother, W. T., of the Wetaskiwin district, besides a large circle of friends and acquaintances.

The remains were brought to Wetaskiwin for interment in the family plot in the Wetaskiwin cemetery, service being conducted in the First United Church on April 7th, by Rev. A. R. Schrag. The pallbearers were Messrs. T. A. Angus, Harry Grant, Manfred Grant, Zens Cleland, Bert McEas and George Graham, and a large number of friends were present to pay their last tribute of respect to the departed.

ALBERTA COULD SUPPLY TEN THOUSAND LIVE CATTLE

Edmonton, April 8.—Alberta has a good surplus of live cattle for export purpose, S. G. Carlyle, provincial government livestock commissioner, stated, in commenting on the announcement of Hon. Robert Weir in respect to the probable shipment of 45,000 head of live cattle to the United Kingdom this year.

Speaking to the senate committee investigating the cattle situation Thursday, Hon. Robert Weir stated that about space has been arranged for 45,000 head of Canadian cattle for export to the United Kingdom. Stabilization of exchange and falling off of imports from Ireland are important factors in the increased demand of the United Kingdom importers for more Canadian live cattle, Hon. Weir explained.

"If prices are high enough Alberta could supply 10,000 of this number," Mr. Carlyle said. "Unless prices are favorable, however, a majority of the saleable stock will be sold on the home market," he added.

Ocean shipping space has always been an important factor in the exporting of live cattle to the old country, the livestock commissioner pointed out.

Last year the dominion shipped approximately 25,000 head to the United Kingdom. It is difficult to estimate the actual total of Alberta export stock. Most of the cattle sold in this province for export are sold in the fall and shipped to Ontario where they are fattened in the winter months. About 5,000 were shipped out of Alberta last year.

A NOTABLE ANNIVERSARY

Mr. V. C. French, of the Wetaskiwin Times, is receiving the hearty congratulations of his confreres in the newspaper game and of his fellow citizens on the 32nd anniversary of his continuous ownership and publication of the Wetaskiwin Times. Mr. French established The Times on March 20, 1901. It is a question whether any other newspaper publisher in Western Canada can produce such a record. Mr. French has been honored by the newspaper men by being chosen President of the Canadian Weekly Newspapers Association about 1925, and his fellow citizens have received the benefit of his valued service, for and advocacy of their interests, for that long period. The Advocate hopes he may be spared for years yet to carry on the good work. And it would also add a word of congratulation for Mrs. French.—Red Deer Advocate.

Tells of Development of Postal Service in North

Those who attended the luncheon of the Wetaskiwin Board of Trade at the Driard Hotel on Monday evening enjoyed a very interesting and enlightening address by Major R. W. Hale, district superintendent of postal services, Edmonton, who spoke of conditions and developments in the North West Territories. There is the spirit of attraction and the call of the north which has a strong appeal to those who reside in the north, and this was referred to in Robert Davidson's poems. Two hundred years ago the Hudson's Bay Co. had the only trading post in the west, and was at York Factory. Hundreds of Indians trading there had copper spearheads and Sam Hearn was sent out to find the source of the copper and he eventually found the deposits as well as other minerals. Later the North West Co. commenced business to get ahead of the Hudson's Bay Co. and did a lot to open up and explore the new land. The Major paid

a high tribute to Wop May, Punch Dickens, and Victor Horner, as well as others who are pioneer alimen who have flown over the north for several years carrying mail and who have overcome the greatest difficulties without even a mishap. Since 1929 a piece of mail has not been lost or stolen.

The speaker vividly described the Eskimos and their mode of living and referred to the rich natural resources of the north, especially platinum, from which radium is extracted. To-day Canada has the largest supply of radium in the world, and it is worth \$70,000.00 an ounce. At the conclusion of his address two very interesting reels of film of the north country were shown.

President Wallis was chairman of the meeting. Carl Smith was elected as chairman of the entertainment committee, owing to the resignation of Carl Walin, and T. Gould was named as a member of the publicity committee.

Kiwanis Clinic Ready for Examinations

We understand that the examination clinic sponsored by the Kiwanis Club of Wetaskiwin is about ready to conduct examinations, and the Community Hospital Board have set aside a room in the new hospital building for the purpose. The Kiwanis Club have equipped this room with all necessary articles to enable the local doctors and dentists to give each child of school age a full examination covering eyes, ears, nose, throat, teeth and mouth. The local school boards approve of the scheme and it is the intention to examine the local children first. The Club has also invited the rural school boards of the Municipal Districts of Wetaskiwin and Bigstone to take advantage of this examination, and these rural school boards have been asked to advise the Club of the number of children in their respective districts who would like to take advantage of the examination and when it would

be convenient to bring them in, after which the Club will endeavor to arrange dates to suit, and advise the school boards accordingly.

The Kiwanis Club has gone to considerable expense in connection with the clinic and an individual record will be kept of each child examined. A report will be furnished the parent or guardian, showing any defects brought to light, and as all examinations are absolutely free we would like to see the parents of the district get behind the clinic and take advantage of this free service for the benefit of the children, as such a project is very much worth while in any community, and we hope that the recommendation for correcting any defects will be followed up by the parents by having the work done by their physician or dentist, which we feel sure will result in improved health for the children of our community.

At the Audien Theatre, Wednesday, April 5th, foregathered a goodly crowd of townsfolk to enjoy the amateur presentation of "The Old Fashioned Mother" by a cast of characters chosen largely from the senior choir of the United Church, and ably directed by Mrs. Enman. Nor was the audience disappointed as they watched the weaving of silver threads among the gold of Mother love into the tapestry of homey virtues and simple graces of a generation just gone by.

Many an eye was misty with the pathos of an honest heart made to suffer by the all too common vices which despoil a fine boy. This was strikingly hit off in the paired parts of John Underhill "the worst of the Deacon's six," taken by Mr. M. Sanderson in his unusually talented acting; and Ernest Rowe, "The Outcast Restored," taken by Mr. Harry Irvine in voice and gesture that left nothing to be desired.

The action opens with the Village Choir at practice in Aunt Deborah Underhill's home. This opening affords an opportunity for the old-fashioned songs to awaken tender memories in the old folks of the audience. The young folks are set off by the sight of quaint costumes—wasp waists, Tug of million sleeves, atrocious spreading tails, such hair and such jewelry Wildder Bill Phidole (Mrs. D. Baker) leading the choir that "chords some," in veeds with back bow 'a' spreading, and then again in homespun, served as a sample of the costuming so faithful to the setting of the play. What antics must have been searched and what trunks rummaged to gather such an array of old-fashioned furniture; neckties and clothes. This note of realism was much in evidence and appreciated.

As the Village Choir, comprising Miss Vivian Millin, Mesdames Johnson, V. C. French, H. G. Smith and Lem Mellett, and Messrs. Beavo, Staples and MacEachern, opened the

Church Choir Presents Appealing Play

play with ye olde songs, to the Old Fashioned Mother (Miss Edna Johnson) naming the run of her babies to the faithful maid Gloria (Miss Loreta Vickers), this note of the commonplace and tender is sustained throughout, thus requiring the actors to "act natural." So it was, and well pleasing.

Miss Lowitz Custard portrayed the foolish fancies of the love-lorn. The part sparkles with wit and vivacious contrasts, making severe demands on Miss Vivian Richards, who ably responded. In keeping with this interplay of smiles and tears was the burlesque of Sukey (Helen Burkholder, always good) and Jerry, the clownish lad, taken by Kells McMurdo, who rocked the house with laughter. Jonah Quakenbush, whitened sepulchre, faultlessly garbed in top hat, ear muffs, Prince Albert, etc., and a manner of oily unctuousness, was excellently acted by Claire Williamson. Mrs. P. Atkinson, resplendent in bridal white, masterful and selfish as she played the part of Isabel opposite Charley Underhill the weak husband (Mr. Geo. Johnston, unassuming and direct) made a vivid impression. Miss Vickers rose to expectations and was very good in the mortgage scene, Quintus Todd, Sheriff, was well cared for by Mr. N. MacEachern.

Central to the drama was the aged Mother. Heavy dialogue that pressed the powers of Miss Edna Johnson. But she was equal to it, in gesture simulating the descriptive, and in voice the faded weariness of age. Careful not to overemphasize her recital she made a splendid companion to the powerful acting of Mr. Sanderson as John "my boy." All in all, well staged, well gowned, well acted. Director and cast are to be congratulated.

A volunteer orchestra under the guidance of Mrs. Condie, discoursed plentifully and pleasingly throughout and so a pleasant time—and no doubt the choir funds were replenished.—(Contributed).

ANESTHETICS IN MODERN SURGERY

(Condensed from Popular Science
Monthly, in Reader's Digest)

The story of deadening the human body to surgical pain goes back thousands of years. Egyptian surgeons hit patients on the head and operated on them while they were unconscious from the blow. In the Middle Ages powerful thumb screws clamped down on nerve-trunks to paralyze a limb during amputation. In 1776 Anthony Mesmer attained fame in medical circles in Paris by hypnotizing the sufferers before they entered the operating room. But the most frequent method of preparing a patient for surgery, until less than a century ago, was to give him alcohol until he was intoxicated. Then while four powerful men held the writhing victim, the operation was performed.

Only after the introduction of anesthetics did the surgeon have at his disposal sufficient time to attempt the marvels we now associate with surgery—dramatic feats like the following.

A six-year-old child, after an accidental fall, was attacked by fits. A surgeon noted that the contractions always began at exactly the same spot on the child's face. Near the rear of the skull he made a small opening and then gently touched the brain over a gradually widening area with an electric needle. Each time the needle came in contact with the gray mass of nerve cells, a quick contraction of the muscles resulted somewhere in the child's body. When this contraction took place at the exact spot where the fits began the surgeon examined the interior of the skull near the spot at which the needle touched the brain. He found a bit of scar tissue. When it was removed the patient made a complete recovery.

That operation required nearly an hour to perform. Less than ninety years ago, the limit of time for any operation was five minutes. The human system could stand the pain no longer. Then, on October 16th, 1846, Dr. William Thomas Morton demonstrated the use of ether at the Massachusetts General Hospital. Two years later chloroform was introduced in Europe and not long after, nitrous oxide, or laughing gas, came into use. The foundation of painless surgery had been laid.

While chloroform was widely used in Europe, it was never popular in the United States. Carried by the red blood corpuscles, it deadens the brain cells which record pain sensations. The danger is that even a little too much in the blood stream may paralyze the heart.

The effect of ether is similar to that of alcohol, depressing the brain. It produces a deeper intoxication than alcohol but one which does not last so long. Nitrous oxide brings unconsciousness by combining with the red corpuscles and preventing them temporarily from carrying enough oxygen to the brain. In present anesthetic technique, nitrous oxide and oxygen are used until the patient has lost consciousness. The ether is administered, finishing off with nitrous oxide again. Less stomach disturbance results than when straight ether is employed. Nitrous oxide is the safest anesthetic; chloroform is the most dangerous, but the most efficient; ether the best for all-round work. In administering ether there are four stages, each with its separate problems. First the patient is stimulated. Breathing becomes deeper. The pupils of his eyes grow larger. At this time too much ether will burn the throat and cause coughing. The way to go under an anesthetic with the least difficulty is to breathe deeply and rapidly.

During the second stage, the patient becomes excited. He may shout or sing or struggle. I remember one giant longshoreman who I thought was safely under the anesthetic when he leaped off the operating table, hurled me across the room and was pummeling me unmercifully when orderlies pulled him off.

Later the muscles become relaxed. The breathing grows regular machine-like. Patients perspire freely and 1932, and amount paid in each case: 1931—4 rugs for lounge, \$875.00; 1 rug for blue room, \$210.00; 1 rug for boudoir, \$170.00; 1 rug for bedroom, \$225.00; 13 net curtains for bedroom, \$33.80; 6 new shades, \$12; 1 pair double drapes, 3 1/2 pair single drapes, \$87.50; 4 pair double portieres, 1 pair single portieres, \$197.25; 2 comforters, \$60.00; 2 bedspreads, \$48.50; 2 dresser scarves, \$6.50; 1 rod for draw curtain, \$7.50; 6 waste baskets, 4 special finish, \$10.80; 2 chairs, \$150.00; 6 pairs silver salt-cellars, \$50.00. 1932—50 cups and saucers, Royal Worcester, 36 coffee cups and saucers, 6 vegetable dishes, Royal Worcester, 2 gravy blands, \$305.55; 1 W. & T. platter, \$28.00; 2 bedspreads, \$52; 1 dresser scarf and dolly, \$11.00; 1 chair, \$45.00; 1 scarf and dolly, \$11.00; 5 pair heavy lined curtains and portieres, \$665.80; 2 rugs and linings, \$900.00; 1 settee seat, \$10.00; 3 dozen liquors, \$10.50; 3 dozen goblets, \$18.00; 1/2 dozen tumblers, \$2.25; 11 window shades, boudoir and bedroom, \$25.00; 5 shades, dining room, \$33.00; 1 cushion, \$4.50; 14 net curtains, dining room, \$56.50.

THEUDAS.

monstrated the use of ether at the Massachusetts General Hospital. Two years later chloroform was introduced in Europe and not long after, nitrous oxide, or laughing gas, came into use. The foundation of painless surgery had been laid.

While chloroform was widely used in Europe, it was never popular in the United States. Carried by the red blood corpuscles, it deadens the brain cells which record pain sensations. The danger is that even a little too much in the blood stream may paralyze the heart.

The effect of ether is similar to that of alcohol, depressing the brain. It produces a deeper intoxication than alcohol but one which does not last so long. Nitrous oxide brings unconsciousness by combining with the red corpuscles and preventing them temporarily from carrying enough oxygen to the brain. In present anesthetic technique, nitrous oxide and oxygen are used until the patient has lost consciousness. The ether is administered, finishing off with nitrous oxide again. Less stomach disturbance results than when straight ether is employed. Nitrous oxide is the safest anesthetic; chloroform is the most dangerous, but the most efficient; ether the best for all-round work. In administering ether there are four stages, each with its separate problems. First the patient is stimulated. Breathing becomes deeper. The pupils of his eyes grow larger. At this time too much ether will burn the throat and cause coughing. The way to go under an anesthetic with the least difficulty is to breathe deeply and rapidly.

During the second stage, the patient becomes excited. He may shout or sing or struggle. I remember one giant longshoreman who I thought was safely under the anesthetic when he leaped off the operating table, hurled me across the room and was pummeling me unmercifully when orderlies pulled him off.

Later the muscles become relaxed. The breathing grows regular machine-like. Patients perspire freely

and 1932, and amount paid in each case: 1931—4 rugs for lounge, \$875.00; 1 rug for blue room, \$210.00; 1 rug for boudoir, \$170.00; 1 rug for bedroom, \$225.00; 13 net curtains for bedroom, \$33.80; 6 new shades, \$12; 1 pair double drapes, 3 1/2 pair single drapes, \$87.50; 4 pair double portieres, 1 pair single portieres, \$197.25; 2 comforters, \$60.00; 2 bedspreads, \$48.50; 2 dresser scarves, \$6.50; 1 rod for draw curtain, \$7.50; 6 waste baskets, 4 special finish, \$10.80; 2 chairs, \$150.00; 6 pairs silver salt-cellars, \$50.00. 1932—50 cups and saucers, Royal Worcester, 36 coffee cups and saucers, 6 vegetable dishes, Royal Worcester, 2 gravy blands, \$305.55; 1 W. & T. platter, \$28.00; 2 bedspreads, \$52; 1 dresser scarf and dolly, \$11.00; 1 chair, \$45.00; 1 scarf and dolly, \$11.00; 5 pair heavy lined curtains and portieres, \$665.80; 2 rugs and linings, \$900.00; 1 settee seat, \$10.00; 3 dozen liquors, \$10.50; 3 dozen goblets, \$18.00; 1/2 dozen tumblers, \$2.25; 11 window shades, boudoir and bedroom, \$25.00; 5 shades, dining room, \$33.00; 1 cushion, \$4.50; 14 net curtains, dining room, \$56.50.

THEUDAS.

As Seen From the Gallery of the Alberta Legislature

The Liberal opposition under the aggressive leadership of W. R. Howson, are rendering a real service to the people of the province in delving into the expenditures of the U.F.A.-Brownlee-C.C.F. administration. The government maintain that there is no waste in the expenditure of the taxpayers' money, but the Liberal opposition maintain otherwise, and as a sample of the class of information which they are extracting from the government check-over the expenditures made at Government House for 1931 and 1932. The following itemized statement brings out startling information and would be considered quite a joke if it were not that we are going through such serious times with people on the bread line all over the province, but this means nothing to the government as the expenditures will indicate.

List of all furniture and furnishings that have been sold from Government House during the years 1931 and 1932, and amount received in each case, and to whom sold: One drawing-room rug sold to the Hutton Carpet and Upholstering Company of Edmonton, for \$25.00. List of furniture and furnishings that have been purchased for Government House during the years 1931

THE EIGHTEEN POINTS

At a meeting of the Liberal Provincial Executive held in Edmonton, sixteen points were selected from the platform adopted at the provincial convention held in October. The following comprise the points selected and considered of prime importance: The Provincial Liberal Party stand for:

1. A complete reorganization of every department of the government in order to increase efficiency and to eliminate the tremendous waste, duplication and unnecessary expenditure which exist at the present time.
2. To apply the net revenue derived from the natural resources and all other non-capital revenue to the reduction of the public debt.
3. A proper division of the revenues collected by the Provincial Government as between the Province, the Municipalities and the School Districts, in order that the proceeds of taxation may be fairly distributed.
4. A complete revision of all sources of taxation in order that the taxes may be reduced and made to apply more fairly on all of the people.
5. In the administration of the affairs of the Province to spend less than is collected annually.
6. A complete reorganization of the Alberta Government telephone system in order to restore it to a state of efficiency.
7. To reorganize the Department of Agriculture along lines to give effective leadership in all branches of agriculture and particularly in the matter of obtaining markets for farm products.
8. To increase the efficiency of primary education and to adequately maintain secondary education.

9. The proper maintenance and improvement of all the Public Health services of the Province.
10. The proper safeguarding of the ownership and development of power for the benefit of the people.
11. Unemployment relief should be afforded to those entitled to it but 1 is a Federal responsibility and the Province and Municipalities should be relieved of all liability in connection therewith.
12. To enact such legislation and take such other steps as will immediately give a fair measure of relief to the people of Alberta from the burden of both public and private debts and interest charges.
13. To support the system of contributory unemployment insurance.
14. To fight for an immediate general lowering of tariffs and the removal of all other restrictions on trade in order to effect a reop-

ing of the markets for our products.

15. Favors Federal legislation for the supervision of the issuance of securities to the public by corporations organized under Federal charters.
16. Favors the establishment at the next revision of the Canadian Bank Act of a central national bank, whose function will be to direct and control the issue of currency and the extension of credit through the banks of Canada.

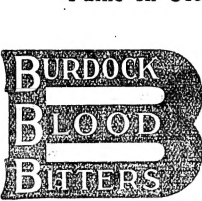

A stranger brought to the police station for speeding, when asked his name replied that it was Smith.

"Give me your real name," he was ordered.

"Well," said the stranger, "put me down as William Shakespeare."

"That's better," the officer told him. "You can't bluff me with that Smith stuff."

Troubled With Indigestion Pains In Stomach After Meals

The pains and distress caused from indigestion or dyspepsia may be removed by the use of B.B.B. It tones up and restores the stomach to normal condition so that it digests food without causing discomfort.

Mrs. C. O. Chamberlain, Sherbrooke, Que., writes:—"I had been troubled with indigestion and pains in my stomach after meals.

My mother recommended Burdock Blood Bitters, so I got a bottle and after taking it was greatly relieved.

I recommend it for indigestion, or any form of stomach disorder."

The Gossips' Reunion

Canadian Garden Service

(By Gordon Lindsay Smith)

Add Some New Flowers
For the sake of interest alone it is a splendid practice to add a few new flowers to the list chosen every year. Without this little departure from the straight road, a garden will soon become stereotyped. Then, too, the season may not suit some old favorite or that favorite may require fresh ground in which case he actual amount of bloom begins to fall off. It is a mistake also, to base likes and dislikes on the flowers of a few years ago. In the last decade there has been amazing improvement in almost all flowers. Many of the singles now come also in double form and again some original doubles, like the asters, can today be secured in beautiful singles. Sizes have been altered. Such things as the zinnias, for instance, coming in dwarf, medium and giant size and this variation applying to bloom as well as plants. The modern Snapdragon is another flower which would not be able to recognize its ancestor of only a few summers back. It comes in small, intermediate and tall types, and will bloom even after the first frosts in the fall. Cosmos is rather a common flower throughout a great deal of Canada, but not the cosmos, unfortunately, that is listed in the seed catalog of 1933. Here is a showy plant with single flowers three to four inches in diameter and doubles almost as big. Salpiglossis should not be omitted from the well balanced flower garden. Its glorified morning glory-like flowers come in red, red-yellow and purples with splashes of gold. For bouquets, salpiglossis along with marigolds, of various sizes and color combinations, scabiosa, carnations, sweet alyssum, calliopsis zinnias and cosmos, should not be overlooked.

POULTRY RAISER CONQUERS "ROUP"

Praises Minard's Liniment As Remedy for Roup or Bronchial Flu

Read in this letter from G. Minard, Fort Garry, how he checked Roup (Bronchial Flu) when it broke out among his young hens. "After trying other remedies and obtaining no results whatever," writes Mr. Minard, "I tried Minard's Liniment, five to six drops on the tongue, and sometimes more, depending on the birds. I am positive that it helped me. I had seen Minard's Liniment in a trial and proven remedy for spruing, but I had not seen it, as well as for Bronchial and Rheumatic trouble. For sale by all druggists."

Could Not Lie Down to Sleep She Was So Short of Breath

Mrs. P. J. Chernoff, Shoreacres, B.C., writes: "I had been so troubled with shortness of breath I could not lie down to sleep. I couldn't do any hard work, or climb the stairs, and had nervous and smothering feelings, and became very weak. I tried all kinds of medicine, but could not get any relief, until after I had taken three boxes of Milburn's Heart and Nerve Pills, and since then I have felt better in every way."

For sale at all drug and general stores; put up only by The T. Milburn Co., Limited, Toronto, Ont.

spinach all summer and the stem as asparagus. Tomatoes — Barlana, John Baer, Bonny Best, Chalk's Early Jewel and Livingstone's Globe are standard sorts and Grand Rapids and Sunrise for forcing or staking.

An Early Potato Tip

It is quite possible to produce good sized new potatoes by early July in most parts of Canada, and this at the time the crop is really appreciated and worth some money. Risk a small planting just as soon as the ground works up nicely. To further hurry things along, for two to three weeks before planting spread the seed potatoes out in some frost proof place where they will get as much sun as possible through the window. Soon, healthy, stout sprouts will appear and if planted carefully, so as to avoid breaking off these, the crop will be through the ground in a few hours.

COMMUNICATION

[We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.]

To the Editor, Wetaskiwin Times.

Dear Sir:

SOME FEATURES OF

MR. HOWSON'S CHARGES

On the Alberta Beach-Onaway highway project we learn from the investigations that some features of this public work—public money expended by public officials are:

Mileage, exactly 17.67 miles.
Total acreage of road, 145 acres.
Acreage allowed for clearing, 102 acres.

Price allowed per acre for clearing "only" \$20.00 per acre.
Or total paid for clearing \$2040.00.

"Could any farmer living in the district locate now that clearing?" Answer: "No." "Why not?" (Because)

"Some of it was small stuff and cut by scythe."

"How much of first 8 miles (about half) could have been cut by scythe?" "About 40% (nearly half)."

We, however, submit that the amount required grubbing 40 acres taken from the total allowed for grubbing, or 102 less 40, equals 62 acres, gives nearer what really was the scythe cutting area. Our deduction can be appraised by any farmer who has cleared up his land. That \$20.00 an acre for clearing, for 102 acres of this particular 17 miles of road, was a fair and reasonable price in 1931 (and many of us have seen this road thousands of times) is an utter absurdity. Then for grubbing here we paid another \$1000.00. In other words \$3040.00 for clearing and grubbing 102 acres, of which 40 acres were cleared by a scythe. And then mark you, the contractor received a further \$122.00 for "extras," for this piece of clearing and grubbing. To say the least this is "some price."

Yet in the face of this a reputable farmer from the very district, comes before the committee and swears this clearing was practically done by the Municipality at the time the original road was put in.

The "Solid Rock"
Mr. Howson obtained from the engineer the admission that the general character of the land from Carvel to Onaway was clay and sand. And a further admission that for every 107 yards of common excavation there were 32 yards of loose and solid rock.

We suggest the public should bear in mind the words Carvel and Onaway. Then when travelling over that particular piece of highway glance at the timber growth, the sides of the road, the amount of rock in evidence, etc., then refresh our memories with the above figures.

Speaking generally of all contracts 1931 and 1932, we find some further bits of "juicy" prices.

Mr. Howson: "This contractor who had no competition (why none?) was paid the highest price of all in the first 107." Answer: "Yes."

(Fancy that coming from Alberta's Highway Commissioner, C. A. Davidson, on the witness stand.) Then again! Mr. Howson: "For loose rock you paid 52 cents (per yard) while tenders ranged from 10 to 35 cents?" Answer: "Yes." Oh, to be a contractor! Especially one in on the Alberta Department of Public Works road contracts! Oh boy! (and we understand that some of the contractors call him "Tony" both in and out of his presence. I should think they would.)

And further on we find—Mr. Howson: "All the other contracts let in 1931 after No. 10 (there were 50) were without bids (again I say 'Why, why?') and all except four had 'solid rock' classifications?" Answer: "That is so." May we pause here to ask "Tony" since when did Alberta have come such an area of solid rock? Surely our Minister of Public Works is the proper person to whom to put that question. Mr. Howson: "The Kinzie-Redcliff contract carried a

price for loose rock 17 cents (per yard) higher than any other contract—the highest price paid to any contractor in those two (1931-1932) years?" Answer: "Yes." It goes without saying, that "loose rock by the yard" is "loose rock by the yard" whether it is in "Tony's" constituency or Bill Howson's back yard. It permits of no postulates or hypotheses, underlying principles or common garden "bills." Yet it seems in our Department of Public Works it permits of a difference of 17 cents per yard. "Tony" the public is waiting for you to explain this. Swapping Alex. Ross for "Tony" may not prove so hot for John E.—or too hot. Nor do the investigation figures bear out so sanctimoniously the "non-profit!"

Nevertheless we admit that contractors addressing the Minister of Public Works as "Tony" does smack of "socialization"—but not of goods and lands—just the Ministers. Did we hear some say "Hush! Hush!"?

The extent to which the straight frisking of the public took place by the simple, yet crooked method of padding timeclocks and raising time, will in all likelihood never be known.

At any rate Mr. Crasswell speaking of force accounts, stated he and Mr. Doncaster were advised that contractors and that such was customary on all their jobs. And when asked if they made 10 cents an hour on all laborers, answered "yes." In this particular instance of the Union of Labor and Farmer, otherwise known as C.C.F., or "no profit system." Labor got hooked.

Personally we wonder if the poor devil who actually supplied the muscle for the work will be a red hot C.C.F. after having read the reports of the investigations.

The public should bear in mind that Mr. Howson, or any other man, not on the inside, has an almost impossible task on hand when he attempts to bring the Department before the public and ferret out the things that apparently transpired. This is all the greater reason for giving Mr. Howson unqualified support in his effort. He performed a service greatly needed and in plow of the obstacles he faced, he did it exceedingly well.

The public can and will, best judge the merit of the courageousness of the new Liberal leader. Alberta public officials and contractors had best keep their noses clean—real clean—while Bill Howson remains a member of a Legislature, as gentlemen will likely find Mr. Howson is Albert's a "Solid Rock."

H. A. WHITE.
Mundare, Alberta, April 8, 1933.

When you're HEALTHY
you're HAPPY

HAPPY days are usually healthy days. Why not add to these sunshiny days!

Poor health and constipation go hand in hand. Get rid of common constipation by eating a delicious cereal.

Tests show that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to tone the intestinal tract. ALL-BRAN is also twice as rich in iron as an equal weight of beef liver.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much better than taking pills and drugs—so often harmful.

Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

At all grocers. In the red-and-green package. Made by Kellogg in London, Ont.

Neighborhood NEWS

KNOB HILL

Pat Collison and Otron Hanna left last week for Coronation.

Rev. P. G. Matthews of Adler Plains has been giving a series of prophetic lectures in the hall for the past week, and will continue them till Easter Sunday.

Newton Eliason returned home from Edmonton on Friday, where he has finished the term at the University.

Edgar Eliason is spending the holidays at the home of his parents, Mr. and Mrs. C. R. Eliason.

C. E. Stone has returned from Red Deer, where he was working for some time.

Spring is setting in late this year. There is no hope for the farmers of getting in their fields for some time yet, as only about half of the snow is gone off them. The roads are nearly all bare, but are almost impassable for any vehicle.

BITTERN LAKE

Mrs. R. Elgert went to Edmonton Friday, to visit her brother and friends.

R. J. Daley went to Edmonton Saturday on business.

Mr. and Mrs. Edwin Johnson and family and Chris. Asklund, spent Sunday at W. Altvater's.

W. Hawko, P. Lapka, John Papowich and Bill Butala, all left during

last week for Mayerthorpe, where they will resume farming.

Ross Daley was a Weaskiw business visitor on Saturday.

Max Bush, who has been attending the Bible Institute at Calgary during the winter, arrived here Monday to visit his brother and friends for a while.

Mr. and Mrs. C. T. C. Roper were Edmonton visitors last Wednesday.

Miss E. Walkemeyer of Camrose, is the practice teacher here.

NEW NORWAY

Miss Marguerite Gillis of Wetaskiwin, is visiting at the M. McIntyre home.

G. Holt and Oliver Holt took Master William Holt to Edmonton last Monday, where he submitted to an operation for appendicitis, and is a patient in the Royal Alex. Hospital. At present writing he is recovering nicely.

Mrs. James Borseth went to Three Hills last Monday to visit her daughter Teulst, who is to finish a five months course there at the Three Hills Bible Institute. They both will return home the first of the week.

Miss Ida Butler is visiting her sister, Mrs. N. Solberg, at Ryley, this week.

M. McIntyre spent last week-end at Camrose with Mrs. McIntyre.

Mrs. E. Olstad of Peace River, is visiting relatives in New Norway while Mr. Olstad is taking treatment in Edmonton.

Dr. Wisegor of Perintosh, drove to Edmonton Sunday with Miss Vera Perkins to consult a head specialist.

Mr. and Mrs. G. Greiner left last week for their old home at Saginaw,

Mich., after spending two years here on their farm. Mr. H. Baker has rented their farm.

The young people of Poplar Bluff school enjoyed a pie social last Friday night.

Miss Gertrude McIntyre spent the week-end at Camrose.

The Zion Young People are preparing a special sacred program for Easter evening.

L. Baher and E. Solid spent several days last week in the Kingman district.

FALUN

Mr. and Mrs. O. S. Hagquist returned from Antrossa, where they have been for the winter months.

Mr. and Mrs. C. Isaacson made a business trip to Edmonton last Thursday.

The Vasa Lodge had a very successful dance in Lone Ridge hall on Friday, April 17th.

Mr. and Mrs. T. S. Steedman attended the Viny dance on April 17th, monitoring up to Edmonton from there and returning home on Sunday.

(Intended for last week)

Last Wednesday evening an enjoyable time was spent in card playing and games at the home of J. Olson, the occasion being Mr. Olson's birthday. Luncheon was served by the ladies. They left for the best wishes for Mr. Olson.

Last Thursday evening Lena Sjoerlund was very pleasantly surprised when a large number of friends and neighbors called to celebrate her birthday. Card playing, games and singing kept the evening well occupied. Luncheon was served at mid-

night, when all left with best wishes to Lena.

Several of the Falun young folks attended the dance and draw at Lone Ridge on Friday last. The winner of the car was Mr. Paanen.

Mr. and Mrs. Isaacson and Mr. and Mrs. Steedman attended the card party and dance sponsored by the Board of Trade on Friday last.

Rev. Father MacDonald held services in the Falun school on Saturday last. He will hold services again in the near future.

The Falun W.I. met at the home of Mrs. A. Chapman on Saturday afternoon, April 1st. There were a large number of members and several visitors present. Three new members were enrolled. After the regular business, Mrs. Cronin gave a paper on "Household Economics," after which the ladies adjourned to a lovely luncheon served by Mrs. Monaghan, Mrs. Isaacson and Mrs. Chapman.

The Vasa Lodge held their regular business meeting on Saturday evening last. A delicious luncheon was served by the men-folks.

Several of the young girls liked on the gravelled highway. It being the only dry road. They took lunch with them and returned toward evening.

Victor and Bill returned from Vauxhall on Saturday last. They report spring quite a bit more advanced than here, and also said that there was plenty of snow on all side-roads immediately south of here.

Miss Bertina Anderson has returned home. She has been employed at Wetaskiwin since last September.

Trade with the merchants who advertise in this paper.

LONE RIDGE LOCAL U.F.A.

The usual monthly meeting of the Lone Ridge local was held in the Lone Ridge hall on Wednesday, the 5th inst.

A special feature of the meeting was the congratulations extended to Edmund Soderstrom, on his success at the Chicago International Show.

The business session was curtailed considerably in order to allow plenty of time for the speaker, and the impromptu program which followed.

It was agreed to hold the next meeting at the home of Mr. and Mrs. O. A. Brown, on Tuesday, May 9th. Invitations were also received from Mr. Soderstrom and Mr. Klapstein, which were appreciated, and will be accepted for later meetings.

The President then asked Mr. E. E. Sparks to introduce the speaker of the evening, Mr. Black, of the Dept. of Agriculture.

Mr. Sparks, in referring to the special purpose of the meeting, pointed out that the grain club, of which Edmund Soderstrom was a member, was only organized two years ago, and expressed the hope that this success would be an incentive to greater effort, until not only the third, but the first prize should come to Lone Ridge. Mr. Sparks gave a short history of the grain, calf and pig clubs, and urged every boy and girl to join and share in the educational benefits derived from these clubs. He then introduced Mr. Black, who is in charge of the Boys' and Girls' Club work in the province.

In the course of a very interesting address, Mr. Black added his congratulations to Edmund Soderstrom, and to the club to which he belongs.

ed. The speaker pointed out that it was no mean achievement to attain third place in such company, and in open competition with upwards of 150, samples of grain from every part of the North American continent.

The speaker emphasized the value of the club work, and the judging competitions that were a part of the activities connected with it. He claimed it would be of inestimable value to agriculture to have the younger generation growing up with the knowledge of how to recognize the better grades of grain and livestock, and not only to recognize, but also to know how to produce it.

At the close of his address Mr. Black answered several questions which were asked, and was then given a very hearty vote of thanks for his very interesting talk.

Local artists then entertained the gathering, all the items being received with great appreciation. The ladies then served lunch, and a very pleasant evening was brought to a close.

BRIGHTVIEW

The many friends of Mr. and Mrs. P. Olson are glad to hear that their little daughter Lila, is improving after her operation in the Wetaskiwin Community Hospital, and will be home again soon.

Baith and James Milton, whose birthdays are only a few days apart, were pleasantly surprised Sunday evening when about forty of their friends gathered to celebrate the occasion. They both received beautiful gifts, including a parcel received in the mail box, which looked like a package of paper, but turned

out to be dainties. The evening was spent with games and music, etc., after which a sumptuous lunch was served by the girls and Mrs. Milton. The gathering circled round the fire with the usual songs. Miss Milton, in a few words, thanked the gathering and welcomed them at her home at other times, as well as birthday parties.

LONE RIDGE JUNIOR U.F.A.

The monthly meeting of the Lone Ridge Jr. U.F.A. will be held at the Lone Ridge hall on Tuesday evening, April 18th, at 8:30 o'clock. Mr. W. Stevens, president of the senior local, will address the meeting. Everybody welcome.

Communist activity in Canada is more dangerous today than for some years, the House of Commons was informed by Hon. Hugh Guthrie, minister of justice, and power is sought to increase the Royal Canadian Mounted Police, if necessary.

The British Columbia government went on record in favor of the dominion government at once devising a plan for the scaling down of interest rates.

SPORT

SOFTBALL LEAGUE IS BEING ORGANIZED IN WETASKIWIN

On Wednesday evening last the softball enthusiasts in the city met and organized for the season with the following officers: President, Geo. Beavo; vice-president, Byron Richards; secretary Mike Aboussaff. It was decided to form a league, and to date four teams have entered, namely: School, Clerks, Northern Drug and East Side and it is expected one or two more will enter in a few days. The games will be played on the Alexandra school grounds, and the Aboussaff cup will be awarded the winners at the end of the season.

HAWKS BEAT QUAKERS TWO STRAIGHT GAMES

Vancouver, April 10.—Swooping down on the Saskatoon Quakers and giving no quarter, Moncton Hawks completed their quest for the historic Allan Cup here tonight by downing the western champions 2-0 for their second straight victory in the final series of the classic crown themselves Canada's senior amateur hockey champions. They won the first game of the best two-out-of-three series Saturday night 3-0. The Quakers did not fall prey to the Hawks, however, without making their opponents fight every minute tonight to win the western champions proving themselves worthy foes, brilliantly battling the far east warriors throughout 60 minutes of hectic hockey.

BASEBALL TEAM TO BE FORMED

A meeting of the baseball supporters will be held in a few days for organization, and at the same time to consider the possibility of forming a league with the neighboring towns. It is hoped the meeting will be largely attended and that Wetaskiwin will be able to enter a league with possibly Ponoka, Camrose and Leduc.

STANLEY CUP HOCKEY

Hockey history was made at Toronto when the Maple Leafs qualified to defend the Stanley cup by defeating Boston Bruins in the deciding game of a five-game series by a score of 1-0 after 104 minutes and 46 seconds of overtime. A record crowd for the Toronto Gardens—14,530 paid admission—saw the struggle, from which both sets of contenders emerged on the verge of exhaustion.

Fire Chief James Smart of Calgary retired from active service after 48 years in the force.

SUMMER SCHOOL IN DRAMA AND ART AT BANFF, AUG. 7-25

The Department of Extension of the University of Alberta, through the generosity of the Carnegie Foundation, plans to hold a Summer Course in the Drama and the Arts Related to the Theatre in Banff, August 7 to 25.

There will be no tuition fee for the three weeks course, other than a registration fee of \$1.00. The Summer School is open to all who are interested in Dramatic Art and the Community Theatre. All registrations should be sent to Mr. E. A. Corbett, Director of the Department of Extension of the University of Alberta. Registrations should be made before June 20.

A booklet outlining the work to be covered during the course will be mailed to anyone who is interested. Requests for the booklet should be made to Mr. Corbett or to Mrs. Haynes of the Department of Extension.

ALBERTA GRAIN MAY BE ENTERED

Edmonton, April 8.—An Alberta exhibit which would involve an expenditure of \$5000 is possible at the forthcoming world's grain show at Regina, according to information given the legislature Friday, by Hon. George Hood, minister of agriculture.

Should the report that Manitoba was making an appropriation of \$5,000 for an exhibit at the show be confirmed, the minister indicated that he would make a similar recommendation to the government of this province.

Just as the afternoon sitting opened, G. H. Webster (Liberal), Calgary, asked the minister what programme was being considered with a view to having an Alberta exhibit. A large number of persons in the province felt that something should be done comparable with the importance of the agricultural interests of Alberta, said Mr. Webster.

Mr. Hoodley replied that the department had paid one-half the entry fees of the Alberta exhibitors amounting to approximately \$360. The field crops branch had given assistance to exhibitors in selecting an appropriate samples, but no further cash outlay was involved. The number of entries from Alberta was 281, provided by 150 exhibitors, some of whom had more than single entries, said the minister.

TEN NATIONS MAY JOIN WAR ON DEPRESSION

Washington, April 8.—Ramsay MacDonald, prime minister of Great Britain, Edouard Herriot, former premier of France, and President Roosevelt today shouldered the leadership of the world's first organized effort to attack that common enemy—depression.

Also invited to send their chief of government or another high official were Germany and Italy; the big three of South America, the "ABC" powers of Argentina, Brazil and Chile; and the two chief Oriental nations—Japan and China.

Bids to other governments are expected to go out soon. The first of the visitors, Prime Minister MacDonald of Great Britain, plans to sail for Washington a week from today.

In quick succession yesterday the bulk of the invitations were dispatched. From foreign capitals came general expressions of satisfaction and indications of acceptance.

It was said authoritatively that war debts are not on the economic programme which the United States will present in the Washington conversations. Controversial obligations may be taken up incidentally with Mr. MacDonald, as the president has agreed to hear the British case.

MAY ENGAGE TEACHERS UNDER MINIMUM SALARY

Edmonton, April 9.—While the \$340 minimum salary clause for school teachers is not being disturbed, the legislature is providing a shore for the school boards that desire to engage teachers at less pay under present financial conditions.

An amendment to the School Act, passed in committee of the whole assembly and now forming part of the bill ready for third reading, provide that until July 1, 1934, the minister of education may authorize school boards to employ teachers at less than the minimum upon receiving a request from the school board.

Outlays in the province for direct relief and relief work from April 1 to December 31 amounted to \$3,243,610. It was stated by Hon. O. L. McPherson, minister in charge.

Alberta News Letter

(Issued by the Publicity Commission—Government Buildings, Edmonton, April 10, 1933)

Coal Production in Alberta

Coal production in Alberta for the month of February totalled 498,332 tons, compared with 477,865 tons in January, and 553,338 tons in December. Production in February of a year ago was 559,031 tons.

Alberta Cattle for Overseas

Alberta cattle raisers are looking for a fairly substantial shipment of cattle from the province to the British market again this year. Last year of the 28,000 head exported from Canada overseas, it is estimated nearly one-quarter came from Alberta feed lots and ranges. The year previous some 8,000 head were exported. This year it is possible between 7,000 and 8,000 head will find their way to the British market, out of the 30,000 or more head which were fed in the province during the past winter on special feed lots and under ordinary farm conditions. Alberta's total shipments of cattle out of the province during 1932, to other provinces and to export were over 96,000 head, and in 1931 were just over 100,000 head.

School Fairs

Under the general policy of economy, the provincial government will make no grants to school fairs this year. There is, however, a quantity of seed on hand which will be distributed to those school fair organizations who are in a position to carry on themselves this season.

Grasshopper Expectations

Though there is no need for great alarm among the farmers this spring regarding grasshopper outbreak, there undoubtedly will be outbreaks in certain of the southern sections of the province. Farmers are urged not to be concerned about hoppers or eggs appearing at present, but to be on the watch for breeding grounds during the latter part of May, when the harmful species will appear. The usual complete arrangements are being made this year by the provincial government to assist the farmers in combating outbreaks. Farmers are asked to send samples of hoppers or eggs at any time to H. L. Seaman, Dominion entomologist at Lethbridge or to Professor Strickland at the University at Edmonton. The poisoning campaign will be under the direction of E. L. Gray, Field Crops Commissioner.

Alberta Seed for Newfoundland

Parfanned world championship wheat from Alberta will be used to seed fields in faraway Newfoundland this season, as a result of the sale by the Alberta Department of Agriculture of a carload of prize seed wheat from Wembley district. In the Peace River, to the Newfoundland Department of Agriculture. The carload was made up of half of Marquis and half of Reward.

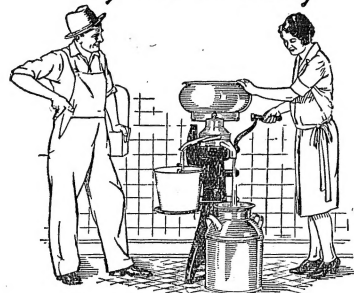

Address of H. J. Montgomery

(Continued from Page 1)
In 1932 from 100 taxpayers of Alberta \$1,294,000.00 more than in 1931 and the increases in existing taxation will bring in an additional \$780,000. Thus in spite of the hard times and the difficulty citizens find in paying taxes here we find the government in 1933 extracting from the people of this Province something over \$2,000,000 more in the way of new and increased taxation than they did in 1931 in face of the fact that it is much more difficult to pay taxes now than two years ago. Municipalities generally have met the situation and have reduced taxation and have set an example we expect the Government to follow.

In 1930 and again in 1931 the Liberals moved for a reduction in taxation by the doing away with the supplementary revenue tax. The Government had a considerable surplus in 1929 and it was our wish to pass this benefit on to the taxpayer. Then in 1931 we had taken over the control and management of our National Resources and we felt that the advantage of the net revenue that could be derived therefrom should be passed on to the taxpayer by a reduction in taxation through the elimination of the supplementary revenue tax. But the Brownlee Government voted down and defeated both these attempts to lighten taxation.

Our public debt is also soaring skyward to tremendous heights. It is now amounted to \$118,545,000.00 on March 31, 1931, and on December 31, 1932 it had reached the staggering sum of \$144,239,000.00, or an increase of \$25,694,000.00 in 21 months, or an average of about one and one quarter million dollars every month during that period.

"No Wonder they sell so many"

McCormick-Deering Ball-Bearing Cream Separators

NEW owners are delighted when they discover the advantages of owning a McCormick-Deering Cream Separator. Ask some of them. You will find them enthusiastic about its close-skimming, easy-turning, silent operation—its cleanliness—and its fine appearance.

You don't know how much you are missing until you see and try the McCormick-Deering yourself. On request we will bring one of the six sizes—(How big is your herd?)—out to your farm for a trial.

Tell us whether you prefer a hand, belt, or motor-driven model.

It is with pleasure that I announce that the INTERNATIONAL HARVESTER COMPANY WILL HOLD A TWO-DAY CREAM SEPARATOR SERVICE at my warehouse.

If your Cream Separator needs a check-over or overhauling please bring it in on either APRIL 20TH OR APRIL 21ST. No charge will be made for labor. The only charge is where new parts are needed. If you bring your machine in the morning it will be thoroughly overhauled and ready for your evening milking.

replacement, and is infinitely superior and is of a permanent nature. I would suggest that the government investigate this method of stage construction as it is called, and if it is as satisfactory as the Manitoba authorities claim it to be, then it should be adopted in this Province.

(To be continued)

ALBERTA LEGISLATURE DOINGS DURING THE WEEK

Important features of the debt adjustment scheme as approved by the legislature in committee of the whole are right of appeal to one or more judges of the supreme court, power of the government to appoint a debt adjustment board, and restriction of protection under the act to contracts made prior to July 1, 1932.—Reduction of various school grants was approved.—On a vote of 29 to 17 the restriction of gas production in Turner Valley to 250,000 cubic feet per day was approved Tuesday. The limit was afterward raised to 240,000 cubic feet per day.—An inquiry into the handling of unemployment relief in five cities was ordered to be made by the public accounts committee.—Premier Brownlee announced that the government intends having a study of the Alberta coal industry made this year by an expert from the United States or Great Britain.—The legislature adopted a resolution calling upon the dominion government to grant a subvention or bonus on freight rates to the Peace River district.—An act was introduced making binder twine sold on credit a charge upon the grain crop.—The public accounts committee adopted a report on the highway contracts investigation, finding the charges unwarranted.

FOR HEAD COLDS

We today have a better chance to live longer and to be healthy than had the people of any former time. We know more about diseases, and so we are able either to prevent or to cure many diseases which used to take a heavy toll of human lives. Better still, we know a great deal more about how to keep our bodies healthy, so that we may be happier and more useful throughout our lives. We understand, for example, that a proper diet makes for good health. We know that we must consume certain substances if our bodies are to grow properly, and if our bones, teeth and other parts are to be strong. We have learned that the lack of these substances means loss of health and, perhaps, disease. We know that these substances which are essential to health are found abundantly in certain foods, notably in milk and milk products. This is why intelligent people use a large quantity of milk in their diet.

Milk has been used by mankind for centuries. For a time, milk was feared by city dealers because it was often so dirty and adulterated as to cause a great deal of illness. The present century, through regular systems of inspection and pasteurization, has seen provided safe milk supplies, and milk has taken its rightful place in the diet of those who live in towns and cities as well as those who are country dwellers. The milk drinking habit is a sign of civilization. To drink milk is to make use of our knowledge concerning its value. Milk should be a regular part of the diet of both young and old.

Milk is our most important single food. During the years of growth, the regular use of milk provides the child with a sufficient quantity of calcium (lime) to build healthy, strong teeth and bones. Even when growth is complete, we require milk for the nourishment of our bodies.

The average normal, healthy person should eat a wide variety of foods. A varied diet ensures a sufficiency of the substances which are essential to keep the body in a condition of health. Milk and milk products are a part of this diet.

SPEED!

Time counts when you're in pain! Insist on Aspirin, not only for its safety but for its speed.

Aspirin tablets dissolve at once. They are many times faster than remedies that are offered in their stead.

If you saw Aspirin made, you would know why it has such uniform, dependable action. If you have ever timed it, you know that it dissolves and gets to work before a slower tablet has any effect.

Stick to Aspirin. You know what you are taking. You know it is harmless; nothing in these tablets to depress the heart. You know you will get results. For headaches, colds, neuralgia, rheumatism, the safe and certain relief is—Aspirin.

ASPIRIN
Trade-mark Reg.

ducts contain many of these substances, and so they should be used freely and regularly.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

HEALTH HINTS FROM PAST

Thousands of years ago a Chinese sage offered these guides to health to the people of his age. Sages and physicians are still giving must the same advice:

"Breakfast early in the morning. "Take in the air of heaven through the nose.

"Never leave the house until you have broken your fast.

"This precaution is all the more important in times of epidemic or when one must enter a house in which there are sick people.

"Take a good meal in the middle of the day. Eat the simplest viands; they are more nourishing.

"Beware of delicate dishes invented only to tickle the appetite.

"Eat slowly; chew well; such mastication breaks the food into bits, charges it well with saliva, and prepares it for the stomach.

"Don't satisfy your appetite to such an extent that when you get up from the table you are surfeited; abundance of food torments the stomach and impedes indigestion.

"Sleep early and tranquilly.

"Better increase the number of your meals than increase the quantity of food you take at each one.

"Acid swift transitions from heat to cold.

"In bed lie on your right side or on your left, head your knees and go to sleep in this position.

"Every time you wake up stretch yourself in bed; this will impart freedom to the operations of the heart.

"The heart is to a man what roots are to a tree.

"If you decline from your original state of prosperity, say to yourself that what you have left will suffice for you. They may take my prosperity from me, say to yourself, but they can not rob me of my heart's repose."—Literary Digest.

DON'T WE ALL?

Don't we all wonder how long it will last?

Don't we all wish it was finally past?

Don't we all hope it will hurry away,

Leaving us here for a happier day?

Don't we all vow if it comes back again

We will all safely be out of the rain?

Don't we all know that we'll never be caught

Buying another thing more than we ought?

Don't we all say it must almost be through,

You cheering me up and I cheering you?

Don't we all fear that it may last forever,

Bringing prosperity back to us never?

That's what we all do, but also we know

Spring days will always come after the snow;

Some of these mornings we'll wake up and cheer,

Finding the good old days really are here.

RUTHERFORD TALKS WERE "MISCHIEVOUS"

Ottawa, April 3.—Why speeches of Judge Rutherford, a United States resident, sponsored by the International Bible Student, were banned from Canadian radio stations was explained in the House of Commons by Hon. Alfred Durnan, Minister of Marine, here today.

Complaints had been received by the Canadian Radio Broadcasting Commission, he said, that Judge Rutherford's speeches were "mischievous," but no action was taken until the commission had secured from a Toronto publication quotations of those addresses.

On January 18, said the minister, the commission instructed radio stations in Canada that the gramophone records on which those features were registered must not be broadcast until they had been submitted to the commission.

These records had been bought by the organization which sponsored Judge Rutherford for 25 stations in this country. However, of the commission that the records be submitted to it was not complied with.

The only response, said Mr. Durnan, was the distribution of literature attacking the clergy and characterizing Hector Charlesworth, chairman of the commission, as a "liar, thief and a Judas, fit only to be associated with the clergy," the minister said.

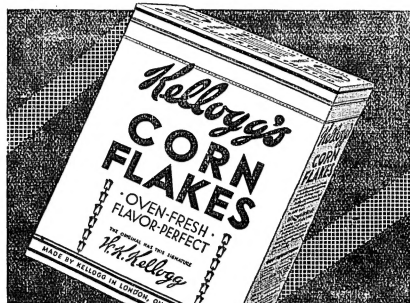

Due to popular indignation in the United States and to the nature of his speeches, Judge Rutherford had been denied access to the network of radio stations in that country. The banning of Rutherford from the air in Canada had been widely approved throughout the Dominion, said Mr. Durnan.

No tire compares in dependability and distinguished patronage with the DUNLOP FORT Tire

The DUNLOP "FORT" Tire is the Empire's supreme achievement in tire building.

It is new to Canada—but it is the very symbol of distinguished dependability in Great Britain and the other Empire countries. It enjoys the patronage of His Majesty the King, and of world-figures in government, industry and society. It will inevitably take a like place in Canada.

The "FORT" Tire is the highest standard in tires. A new standard—entirely beyond comparison. In its construction there is no single element which might restrict perfection—only the determination of its builders to create a tire worthy in dependability and appearance of the finest cars of today.

You will gladly pay a trifle more for the DUNLOP "FORT" Tire than for any other tire—not alone for the satisfaction there is in ownership of fine things—but because "FORT" dependability gives you confidence and freedom from the haunting fear of possible tire failure at today's terrific pace.

Now made in Canada in a limited number of sizes, the "FORT" is the leader of a complete line of DUNLOP Tires which offer you unsurpassed value in every price range.

DUNLOP FORT tire

EARTH STABILITY OWED TO "QUAKES AVERS PROFESSOR"

Toronto, Ont., April 10.—Despite the error and desolation that the earthquake brings, people could be sure that if they ceased to shake the earth all continents would be covered with water in a short space of time that is, a short time as it is measured in the history of the earth, perhaps 10,000,000 or 15,000,000 years. This was what Professor W. A. Parks, head of the geology department of the University told The Star in an interview here.

"If earthquakes cease, the earth would be doomed," Professor Parks said, "because the land would be worn smooth by the erosive action of the seas. But it is not likely that this will ever happen.

"You see," he explained, "according to the theory of isostasy, all the earth's crust is floating on a substratum of molten rock, the earth is lighter than the sea-bottom, and just as cork floats higher than wood so do the continents float higher than the bottom of the oceans. Whenever there is a strain the land is raised or lowered, as the case may be.

Explaining the California earthquake, Professor Parks said: "The entire sea-coast of the Pacific ocean is weak; that is, it is not as well able to resist internal pressure as other parts of the world.

"It is unlikely we will ever have any here," he said, "as this part of the world has a strong surface covering."

posed. Provided the payment is to be made in a currency that is above par in Canadian funds.

The intention evidently is that the payer shall deduct the amount of the tax, and send only the balance of the payment to the outside receiver. In appearance at least the outsider is to stand the loss, if he lives in the United States, instead of getting say 118 Canadian dollars for the 100 dollars due him, he will get only 95 per cent. of the amount. That is the theory.

It is to be earnestly hoped the theory will work out according to schedule. If there is any way by which Ottawa can gather in part of the exchange rake-off that is

going to New York, the more the better. But it may not work that way. The Canadian dollar dropped in New York the day after the budget taxes were announced. That rather looks as though the wily exchange collectors there intend to "pass the buck" to the Canadian payer by making him send along still more dollars.

In that case the Canadian debtor will find himself paying Ottawa five per cent for the privilege of paying his obligations in the United States at the outrageous rate of exchange that has hitherto been imposed upon him.—Edmonton Bulletin.

THIS SEASON...USE ROADCRAFT Tires and save Money!

STRONGER. SAFER CONSTRUCTION

GUM CUSHIONS An Extra Value

ROADCRAFT Tires have Cushions of pure gum rubber moulded in between the plies of cord fabric, making a "bearing" that reduces friction and wear at these points as effectively as ball bearings do in machinery.

ROADCRAFT Tire Treads are carefully designed to give the maximum grip of the road surface, thus giving extra traction and braking power.

GREATER MILEAGE. MORE VALUE

ROADCRAFT TIRES—made by Gutta Percha—will cost you less and carry you farther than any similarly priced tire, with greater safety in every mile.

The famous Gum Cushion reinforcing construction protects the ROADCRAFT TIRE from the bruising road shocks which break down the cord fabric in ordinary tires. No other tire at this price has Gum Cushions. The Resisto Tread, rubber insulated cords, reinforced side walls, extra tread width—all these extra values give you longer tire life and save you money.

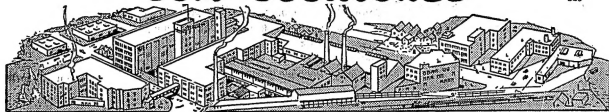

GUTTA PERCHA & RUBBER, LIMITED
Head Office: Toronto Branches from Coast to Coast

GUARANTEE

Roadcraft and Gutta Percha Tires are sold with a guarantee, for 12 months from date of purchase for passenger car service, against any condition that may render the tire unfit for further service where such condition is due to ordinary wear and tear, or injuries thereto caused by blowouts, cuts, bruises, rim cuts, under inflation, wheels out of alignment, faulty brakes or any other road hazard.

THIS IS OUR GOLDEN JUBILEE YEAR

J. H. HEIGHINGTON ONE OF FIRST SETTLERS IN THIS PART OF WEST TELL'S STORY ABOUT PE-O-KIS

Paper presented at the Camrose Historical Society meeting held on March 8th 1933. Subject: "The Early Settlement of the Country Lying East of Wetaskiwin," as told by James H. Heighington.

(Contributed by Mr. F. L. Farley)

Mr. James H. Heighington, now retired and living in Camrose, was born in Halifax, Yorkshire, England, in 1862. In April, 1886, at the age of 24 years, he emigrated to Nova Scotia, and in September

of the same year he moved on to Toronto. On his arrival he saw many soldiers in the city who were returning from the west where they had served in the Riel Rebellion.

After spending a few years in Ontario he decided to try his fortunes in Western Canada, which at that time was receiving much attention. In August 1892 he arrived in Wetaskiwin and took up land on the south-east side of Bittern Lake. He breeds told him that he was the first settler in that part, and that an white man lived in all the country between his claim and the settlement that existed around Battleford, some hundreds of miles to the east. At Duhamel there was a settlement

of about fifteen families of half-breeds. In 1893 Mr. E. Bosmans arrived and took up a homestead north and east of his land. This 160 acres later became the property of W. J. Heever, who still lives on it.

In 1893 Ernest Roper settled on the east side of Bittern Lake and for a number of years conducted a store. Mr. Rodberg opened a store in the valley of the Pipe-stone Creek in 1895. In 1893, Mr. Francois Adam had a store at the top of the hill on the south side of the Battle River, close to Jean Baptiste Labucan's home. Shortly after Mr. Adam moved his store into the valley below the old site.

In 1892 Wetaskiwin had its beginning and made considerable growth that summer when the railway was completed into Strathcona. There was a well-marked trail around the south end of Bittern Lake and this passed on to the north-east beyond Pretty Hill. Some work was done in 1901 on the government road running east from Bittern Lake to the present site of Camrose.

August Snyder, his brother, Carl, and John Schultz settled east of Heather Brae about 1894. William McDonald also took up land in that district the same year, as well as a man named Miller. From 1900 to 1903, Mr. Heighington carried on ranching on Iron Creek not far from the present town of Killam. At that time large numbers of settlers were arriving from the United States to inspect the lands lying to the east of Bittern Lake.

Mr. Heighington gives some very interesting information regarding the probable age of our old and esteemed townsman, Pe-o-kis, a well-known and familiar figure on the streets of Camrose during the past twenty-seven years. Friends and relatives of this patriarch of the plains have long claimed him to be oldest living inhabitant of this part

of the west, some insisting that he is well on to one hundred and fifty years of age. Unfortunately little accurate information has been produced which can go far to establish these claims in a satisfactory way. Some time ago Mr. Francois Adam related the following story bearing on this subject, to Mr. Heighington: "Shortly after arriving in this country I had occasion to make several long trips into distant parts for the purpose of trading with the Indians. To accompany me on these journeys I choose Jean Baptiste Labucan and "Pe-o-kis," the latter to take charge of the horses. One morning when Jean was preparing the breakfast and as Pe-o-kis was returning with the horses, Jean looked up and made the following remark: "Pe-o-kis a very old man now, I know him since I was a boy six years old and he was then quite old man." This incident

occurred when Jean Labucan was a man of middle age and I believe this grand old representative of the Crees is between one hundred and twenty-five and one hundred and forty years of age."—Canadian.

RAILWAYS OR TRUCKS?

The difference between the motor truck hauling freight and the railroads is that in this country of vast distances and variable climate we cannot get along without the railways. But we can get along without the motor trucks.

The point is which of the two are the public of Western Canada going to support?

The railways may have their faults, but there is this to be said for them—they opened up the country and without them Canada's grain crops could not be marketed.

Yet an ever growing percentage of short-haul freight, which the railways must have to compensate for their long-haul profitless traffic, is going to trucks.

It is also to be borne in mind that we expect the railway freight and passenger trains to run on time regardless of weather conditions. But we don't make the same demands of the trucks.

The railways keep their own roads open at their own expense. A heavy blizzard or drifting snow will close the highways to trucks. And the Governments—which mean us—open up the roads for them to run, at our expense. Why should we pay for winter highways used almost wholly by trucks and busses?

In case of emergency it is the railways we depend upon.

In case of emergency it is the established coal dealer with coal in stock we depend upon, and not the coal truck peddler hauling direct from a mine who brings in coal only when he feels like it, and in case of impassable roads cannot operate at all.

The railroads are essential to this country. Freight hauling by trucks is not.

The established coal dealer is as essential as providing an assured and continuous supply of fuel at all times and under all conditions. The coal truck dealer does not do this and therefore is not essential.

THE WETASKIWIN TIMES

Suffered From Headaches and Bad Bilious Attacks

Mrs. R. E. Kavanaugh, Black's Harbor, N.B., writes:—"For years I suffered from headaches and bad bilious attacks."

I tried several kinds of medicine, but none of them seemed to do me any good.

One day a friend advised me to use Milburn's Laxa-Liver Pills, and they proved to be just the remedy I required."

For sale at all drug and general stores; put up only by The T. Milburn Co., Limited, Toronto, Ont.

PROVINCIAL HEAD'S MESSAGE
TO WOMEN'S INSTITUTE

Mrs. Hugh J. Montgomery, president of the Alberta Women's Institute, has sent the following message to Women's Institute members for Home Economics week, now being observed in the province:

"Since the first Women's Institute was formed in Ontario over thirty-five years ago, with its motto: 'For Home and Country,' the organization has stood for better conditions in the home and has consequently given much attention to household economics as well as to other subjects."

"We are proud that an Alberta woman was chosen by the Federated Women's Institutes of Canada to convene this committee and it is due to the efforts of Mrs. MacGregor Smith of Edmonton, who is also our provincial convener of household economics, that the first week in April is being observed throughout Canada as Home Economics Week."

"A great deal can be done by the homemaker in these times of economic stress to see that the family budget is stretched to enable the members of the family to have nourishing food. Our sister institutes in other lands have, ever since their organization, stressed this topic in their programs and in their activities. Let us see what we can do to put it over with an added vim in this province."

"Alberta Women's Institute members, let us get behind the movement and put it over with a bang." (Sgd.) Adelaide Montgomery, President Alberta Women's Institutes, Bulletin.

CARD OF THANKS

The undersigned desire through the columns of the Times to sincerely thank the friends for their many expressions of sympathy and for the assistance rendered during their recent bereavement.

Mrs. Thos. Haigh and Family.
Registered unemployed. In Alberta on April 1 numbered 13,516, of whom Edmonton had 5,015 and Calgary 6,957.

Beaver trapping north of township 69 will be permitted on open season to the end of April.
